EXPERIENCE:

Eirgrid Group, Dublin— *IT Project Manager*
September 2021 – Current (2 Years 1 Month)
-IT Project Manager:Sep 2023 - Current
-Graduate IT Project Manager: Jan 2023 - Sep 2023(9 months)
-PMO Analyst: June 2022 – Jan 2023 (8 Months)
-Applications Developer: Sep 2021 – May 2022 (8 months)

Eirgrid Group, Dublin— *Application Developer(Intern)*
January 2020 - August 2020 (8 months)
-I worked full-time in Eirgrid for 8 months as part of our college Internship. I was placed on the application development team and my main duties included working with databases using SQL Developer and ODI.

PROJECTS UNDERTAKEN:

EirGrid Group
   1)   European Awareness System
Description:
- This project was done to upgrade and add extra resilience to the current system due to the current system breaking down.
- I had to create the documentation for this and bring it to Demand Management (Project Funding) and put it through capital approval.
- Once that was received I worked alongside the data center team to purchase the hardware from our external vendor.
- This was deployed in two of our sites in dublin (Office and backup DC)
- Once that was complete the servers were racked and the VM's were built. Then we had UAT testing from the Control Centre staff.

Challenges faced:
- Project funding took longer than expected.
- Staff availability

Technologies & Tools Learned/Used:
- MS Projects
- Hyper V (VM)

ONLINE CV (WEB DESIGN):
https://dylannelson99.github.io/

LANGUAGES/TECHNOLOGIES USED:

- MS Projects + Excel
- SharePoint
- Java + Python + C# + C++
- JavaScript + HTML + CSS
- Azure DevOps + GitHub
- Android Studio + Firebase
- DevOps CI/CD

(Tony Fleming -Programme Manager)

- EirGrid Group, Dublin
07789900098
(Sean Mackin – Head of IT Portfolio and Engagement)

INTERESTS:
- Attended a HubSpot seminar on networking and web development.
-App development and deploying apps online.

2) Exchange and Mobile Migration

Description:
- Managed a project that provided all staff with work mobile phones to align with our hybrid model across our 2 sites (Dublin and Belfast).
- Daily meetings with the deployment team each morning.
-Prep work evening before by having all bookings sent to the WSO team to migrate user accounts to exchange online.
- Managed stock and booking system for Appointments.
- Dealt and communicate with external vendors.
- Completed Bi-weekly status reports to Management and PMO. Along with smaller weekly reports to my Programme Manager.

Challenges faced:
-Stock lead time management.
-Standardizing staff phones to all iPhones.
-Managing cross offices phone setups

Technologies & Tools Learned/Used:
-Apple Business Manager and MS Intune
-MS Bookings
-MS Projects
